Conclusion

# Basic Idea

- POLIMI Sports

- Sports Booking app; used for booking courts and grounds

- Aimed at student faculty primarily

- Available on Android & IOS

# Technologies

For app development, we can use React Native - which is JavaScript for Front-End and Back-End Management

For the UI/UX, design is created on Figma

For DataBase Management Systems – a relational database through the utilization of MySQL

For tracking the statistics of user demographic, behavior, usage of Google Analytics
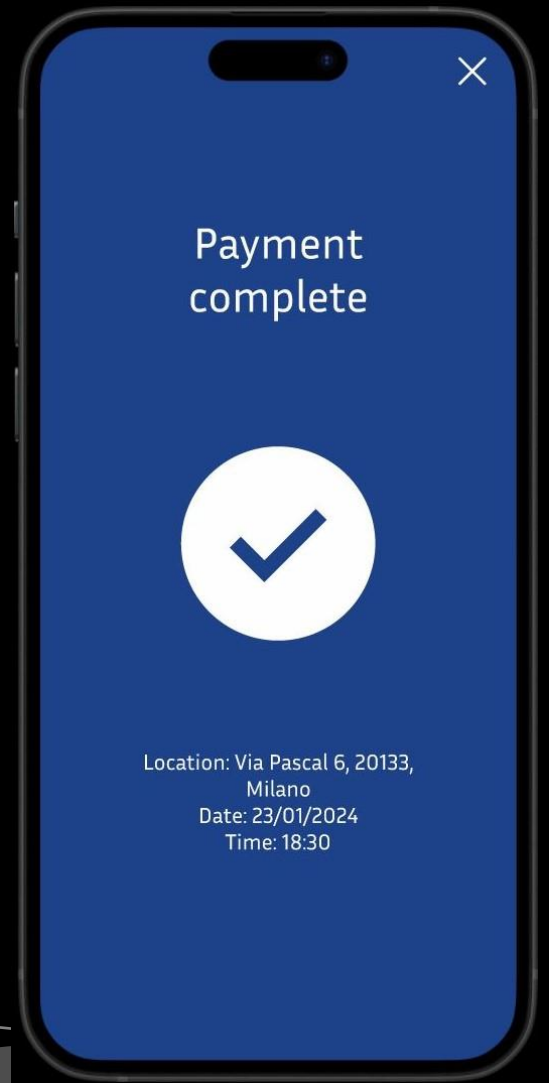

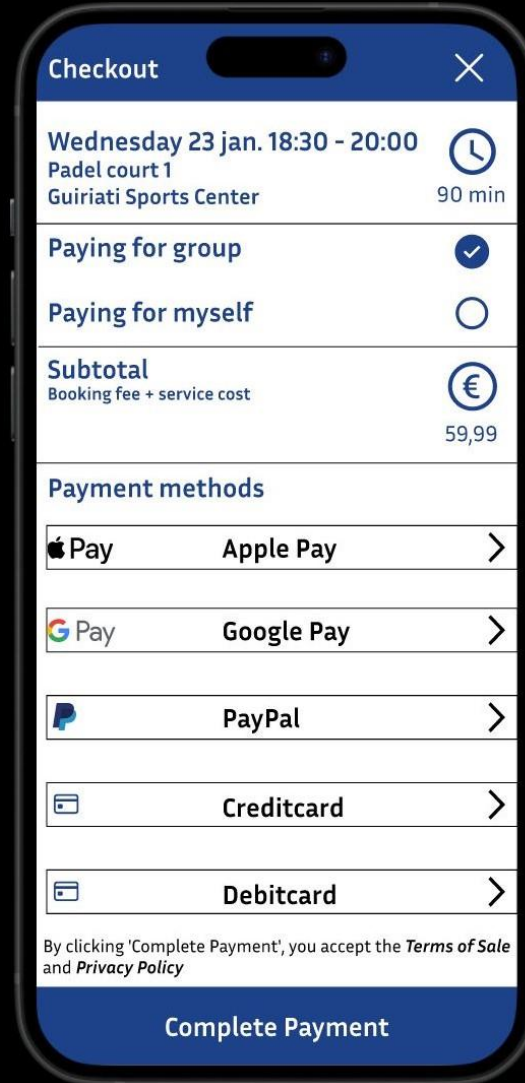

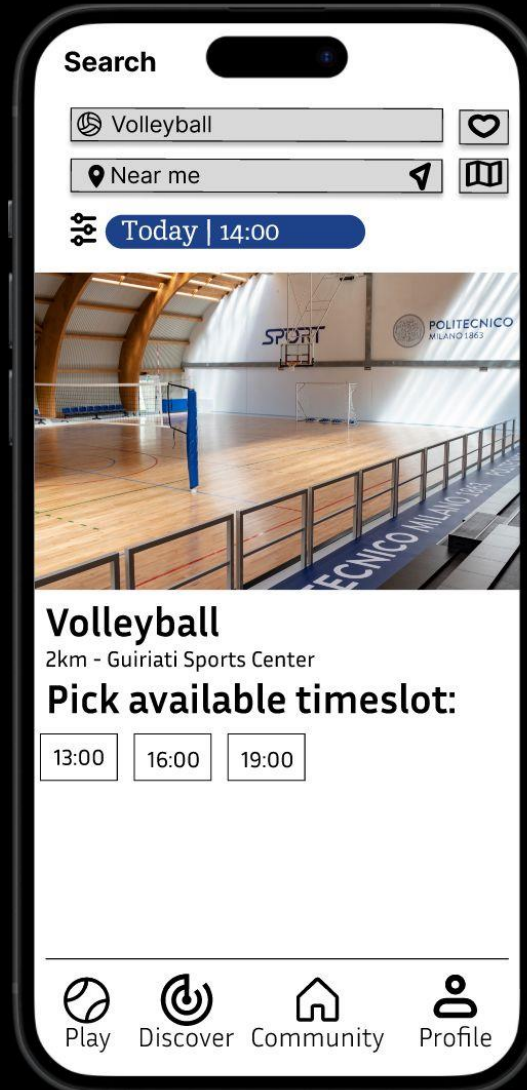

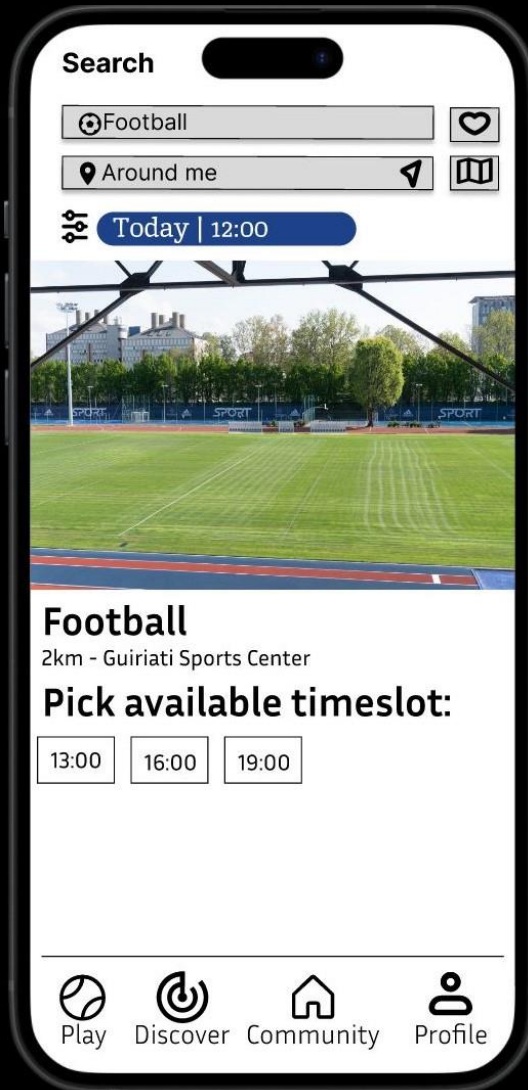

# Business Model

- Aimed at POLIMI Students willing and able to play their desired sport

- Every participant booking a court pays a service fee (€0.50) which is accounted for through a payment gateway

- Partnerships and Collaborations with Sports Companies such as Adidas
